Master Workman George Blair, a leading member of the Knights of Labor in this city, said: "The subject of Chinese labor has not come prominently before our organization yet, nor has it been agitated in the district meetings. The Chinese only affect two industries in this city at present, the laundries and cigar manufacturers. The former is not recognized, and is virtually controlled by the Chinese anyhow. Of the latter, but few Chinese are employed to my knowledge as yet. When they begin multiplying it will be easy to get rid of them, for a great majority of the cigar-makers belong to the Knights of Labor. It is possible that Dooner is acting on the authority of a District leader, backed by prihority of a District leader, backed by pri-

MASS MEETING OF CITIZENS AT TURNER HALL.

was no noisy demonstration, no discussing of the objects of the meeting, but they were a quiet and orderly body of men, many of whom were unable to procure work, and who were anxious to hear what f anything, the meeting would or could do to improve their condition. At 7:15 the doors were opened, and the crowd rushed in pell-mell. In less than five minutes standing room could not be obtained, and it is safe to say that it was the largest gathering that ever assembled in the hall. It was a perfect sea of up-turned faces; men who maintained the most perfect order and liberally applauded the senti-ments uttered by the speakers.

The assembly was called to order by Willam Tanner, the representative working-

man, who was instrumental in calling the meeting. He said the meeting had been called for the purpose of considering in al its bearings the momentous question that was sgitating the whole people of the coast, that of Chinese cheap labor. He had called upon the business men of the city, as well as the mechanics and laborers, and had succeeded in getting them united upon this most important question. By a united effort he thought it was possible to free our selves from this incubus, "this old man of the sea," and relieve the present wants of white laborers. He asked for nominations

George B. Katzenstein was unanimously chosen Chairman of the meeting, and J. H. Miller and J. B. Harris Secretaries.
In assuming the duties of the chair, Mr Katzenstein said he esteemed it an hono and pleasure, as well as a privilege, to be called to preside over such an assemblage in the capital city of the great State of California. He understood it had been called jointly by the Board of Trade. Citi zens' Committee and representatives of labor, to consider the question of the Chi-nese evil. A new system of slavery was brought into existence right here on the Pacific coast—a slavery more degrading, more de umanizing than that of the South. There are degrees even in evil-doing, for when we compare the slave system of the South with that of the Chinese we shall find the Southern system was the more humane of the two, for where will we find Southern planters importing women for the pur-poses of prostitution? It is because we want no slavery that we want the Chinese to go back to China. Another and even more serious reason stands in the way of the admission of the hinese into this country. Allied by cus m, religion and instinct to the habits o heir country, they do not assimilate with the people of this country. America opens its doors to all who desire to share in its blessings of freedom; but it asks in return the aid and co-opera-tion of all to help guide the ship of State. All who enjoy her blessings are expected to stand ready to defend this, our common country, and, if neces sary, to sacrifice life and property in her defense. Will the Chinaman do this? I he cannot, then he is not wanted here The preservation and perpetuation of this noble republic depends not so much upon the support of the very few extreme-

Fourth—And it is further declared that while such measures and acts are being devised as shall give us the reliet we demand, lawfully and peaceably, that it is our supreme duty to employ all lawful methods to discourage the residence of the Chinese in our midst or their further immigration into the country.

Fifth—That we are moved to these deliberate conclusions for the reasons as follows, to wit:

1. That the Chinese laborer and general wagewinner, being a competitor with the white winner, being a competitor with the white laborer and artisan, by such competition com-pels the latter to live in a state corresponding to that of the social condition of the Chinese in

o that of the social condition of the Chinese in ur midst.

2. That such a condition for the American abover and artisan means a method of life in-ompatable with the recognized demands of American citizenship, and the consequent deg-adation of that class of our citizens to a level

or the upbuilding of strong, prosperous, intelli-gent and happy communities.

7. That by their vices, their personal habits, and their adherence to semi-barbarous systems, they are incapacitated to become factors in the physical and intellectual composition of a free

R. T. Devlin said the question had got down to this: That there is not room for our own people and the Chinese—one or the other must go to the wall. Our own people must stay, and the Chinese must go. We can accomplish this, for with a united people nothing is impossible. To-day liberty is nearly within the reach of Ireland by peaceful action. If we unite and work together, it is only a question of stand that it is unpopular. Boycot ting, some say, is not right. In

Make the landlord underout emigrants, who would, we can conceive, be affected by the limiting of immigration, but it is unreasonable to suppose that these people would at all influence the policy of their Government. But if it be admitted that our commercial relations would suffer, it is better that they should, than that the American labor element be degraded to the level of the Chinese wage winner.

METROPOLITAN THEATER .- It is a matte for regret that the Thompson Opera, Company could not have been first heard here in Millocker's beautiful comic opera, "The Beggar Student." It was sung last night, and the troupe achieved a pronouvced success. The piece was very handsomely costumed, and was well sung. The music is more varied, vivacious and "taking" than that of "Nanon." It tested the capabilities of the bilities of the company, and proued it to have sterling mettle. The musical vocal have sterling mettle. The musical vocalization is better than that of the Carieton company in many respects. In contralto and tenor strength it is notably superior. The demands for repetition of songs and choruses last evening were so frequent as to become almost tiresome, and this may be taken as the measure of the satisfaction of the auditors. The numbers most warmly applauded were the duo between Seaman, an excellent baritone and tween Seaman, an excellent baritone, and Bauson, a capable tenor; the trio of Misses Godfrey, Vining and Hall, a charming piece; the baritone solo, "The Belles of Poland," by Mr. Seaman; the drinking song by Miss Godfrey, a contralto admirably adapted to this order of operatic work; the drum chorus in the first act, with the comedy stage business of Miss Hall; the silver cup drinking song in the second act. silver cup drinking song in the second act, and the "O'he, Mama" love song by Miss Hall. This latter the lady—whom we had not credited with special musical ability, though a pleasing comedy actress, despite an unpardonable drawling falling inflection in all her speaking passages—was compelled to sing three several times, and that she gave it with expressions. that she gave it with surprising success and marked effect, is simple justice to state. In hort, the opera was a complete success. auch pleased with its light an vating airs a good audience. It will be sung again to-night, to-morrow night, to morrow afternoon and Sunday night. Compared to "The Mikado," this opera, musically, is as day is to night, and, to the credit of the troupe, its presentation of "The Mikado" is not at all to be compared to its success in "The Beggar Stu-

Dickens once said: "Blessed be the story books!" His words had a deeper meaning than at first might appear. He was thinking what kind of men and women the right story books make. In other words, buy story books for your children, but be careful in the choosing. Get the right kind.

Commercially we have had but little to do with books hitherto. This year, however, we have made a regular business of handling them. We have a considerable stock from an Eastern publisher. Each book we believe has been selected carefully, wisely and well. We have aimed in our stock to exclude any books not good in every respect.

Our assortment includes A B C Books, Colored Story Books, Small Cloth-covered Books, and quite a collection of literature for boys and youths.

"Whether the resolutions, if drawn up, will be favorable to the coinage of silver dollars or otherwise, I cannot say." said Mr. Stetson. Farm Laborer Found Dead-Attempted

Suicide. CHICO, December 10th.—While hunting for some lost boys on the Stanford ranch, near Durham, yesterday. Fred. Ackerman, of this city, found the dead body of a man lying in a field. He had been dead about one week. The remains were brought to Chico last night and identified as those of John Brown, a farm laborer, aged about 35 years. It is supposed that he died from exposure while walking in the heavy storm

At half-past 1 o'clock this morning a woman named Annie Milroy, residing on East Eighth street, attempted suicide by swallowing a dose of laudanum, she was well nigh death's door before she made known what she had done. A physician was summoned, who administered the usual remedies, and she was saved. Fatal Hemorrhage Caused by Diphtheria.

HEALTH

Is not possible when the blood is impure, and Is not possible when the blood is impure, and recovery from any ailment must be slow and uncertain while that condition continues. The Blood may be corrupted by the taint of Hereditary Scrofula, and the poisons of Mercurial and Contagious Diseases, and also by impurities implanted in it through excesses in living, improper food, derangement of the digestive and assimilatory organs, and other causes. The first external evidences of such vitiation are Blackheads. Pimples, Sties, Eruptions, and Boils. Yet more serious are the symptoms showing its internal effects in depression of the Spirits, Lassitude, Weariness without effort, Headaches, Dizziness, and enfeebled circulation. Be warned in time!

Ayer's Sarsaparilla

Is the only medicine that will thoroughly purify the blood. In millions of cases, during nearly forty years in which it has been the best hope of humanity suffering from vitiation of the life-current, it has effected cures beyond the power of any other remedy. Leading physicians know its composition from the most powerful altera-tives, diuretics, and tonics, and prescribe it in their practice.

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass, Sold by all druggists: Price \$1; six bottles for \$5.

"Sire!" exclaimed a man in the homely garb of a mechanic to Richelieu, Prime Minister of France, as he was entering his palace; "Sire, I have made a discovery which shall make rich and great the nation which shall develop it. Sire, will you give me an audience?"

Richelieu, constantly importuned, finally ordered the "madman" imprisoned. Even in jail he did not desist from declaring his "delusion," which ene day attracted the attention of a British nobleman, who heard De Cause's story, and developed his discovery of steam power!

All great discoveries are at first derided. Seven years ago a man yet under middle age, enriched by a business which covered the continent, found himself suddenly stricken down. When his physicians said recovery was impossible, he used a new discovery, which, like all advances in science, habe he bitterly opposed by the schoolmen. Nevertheless, it cured him, and out of gratitude therefor he consecrated a part of his wealth to the spreading of its merits before the world. Such in brief is the history of Warner's safe cure, which has won, according to the testimony of eminent persons, the most deserved reputation ever accorded to any known compound, and which is finally winning on its merits alone the supreyayl of the most conservated, and which is finally winning on its merits alone the supreyayl of the most conservated, and which is finally winning on its merits alone the supreyayl of the most conservated.

Epithelioma! OR SKIN CANCER.

For seven years I suffered with a cancer on my face. Eight months ago a friend recommended the use of Swift's Specific, and I determined to make an effort to procure it. In this I was successful and began its use. The influence of the medicine at first was to somewhat aggravate the sore; but soon the inflammation was allayed, and I began to improve after the first few bottles. My general health has greatly improved; I am stronger and able to do any kind of work. The cancer on my face began to decrease and the ulcer to heal, until there is not a vestige of it left—only a little scar marks the place.

MRS. JOICIE A. McDONALD. Atlanta, Ga., August 11, 1885.

I have had a cancer on my face for some years, extending from one cheek bone across the nose to the other. It has given me a great deal of pain, at times burning and itching to such an extent that it was almost unbearable. I commenced using Swift's Specific in May, 1885, and have used eight bottles. It has given the greatest relief by removing the inflammation and restoring my general health. W. Barnes. Knoxville, Iowa September 8, 1885.

THE "HOME SEEKER." The Immigration Association of North-

ern California is now preparing to issue the December number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. :t will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on or immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be dis-tributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories.
